

Grading for Phase B: System Design

Repo name:	Team-110/phaseB
Repo commit date	Feb 11
Graded by	Weintraub
Total Score	88

UML class diagrams reflecting major components and data structures	<p>Admin and Instructor are not sub-types of Authentication. Should be association.</p> <p>The plagiarism detector should be associated with the content of the submission, not the submission, I believe. This violates Dimeter.</p> <p>The report manager seems to serve no purpose.</p> <p>-5</p>
--	--

Java interfaces for the components and major data structures	<p>abstraction of various users of the system. ... <code>public interface User</code> .</p> <p>Comments like these are unhelpful. -3</p> <p>Similarly, when you implement the interface <code>his class</code> provides implementation of <code>submissible</code> interface and is used to <code>interact with submissions</code> is merely what <code>public class Submission implements Submissible</code> says. -4</p> <p>Too many class files lack documentation.</p>
